

Lucky You! (Free Course) Initiative

Guidelines & Important Information–Graduate

Eligibility

- Applicable to graduate students registered as of Sunday, August 2, 2020.
- Students may add one course (up to four semester credit hours) for free between August 3 and August 14. *(Example: A student currently registered in 3 SCH adds an additional 3 SCH course, for a total of 6 SCH)*
- Students may not drop courses or otherwise alter schedules. Such action will negate eligibility.
- Students may contact Gradrecruitment@tamuc.edu with questions.

Important Information

- Students will see additional charges immediately in LeoPay when they add a class.
- Credit for the additional class will not be applied immediately.
- Student Accounts will apply the credit on August 14th for the additional class (both tuition and fees will be covered).
- This initiative will not result in any student refunds for dropping the free course.
- Financial aid for fall will be released beginning August 14. Student financial aid refunds should be unaffected for full time students since applying the credit for the additional class will offset charges for the added class. Students who are enrolled less than full-time should contact their financial aid advisor for more information on how less-than full-time enrollment can affect their cost of attendance and financial aid awards.
