

2015 Student Research Symposium

At Hardin-Simmons University
Sponsored by the HSSM Research Society
Saturday April 18, 2015

Event Description

The "Student Research Symposium" is a venue for high school, undergraduate, and graduate students from area schools and universities to present posters on their research. The symposium is multidisciplinary and includes research in all areas of: Arts and Humanities; Social Science; and STEM [Science, Technology, Engineering, and Mathematics].

The event, sponsored by the university HSSM Research Society, is a free event for any high school, undergraduate, or graduate student who wishes to present a poster by submitting an abstract for approval and consideration in the symposium. The event is open to the public and a great way to showcase student research around the area. All selected participants will have their abstracts published in the symposium program and will receive a certificate of participation.

Posters will be considered in the following Symposium sections:

- Arts and Humanities
- Social Sciences
- STEM

For more information about the event to include eligibility requirements, registration, and abstract submission please go to

<http://www.hsutx.edu/student-research-symposium/>
