

THE TEXAS A&M
UNIVERSITY SYSTEM

NSE Day Virtual Career Fair

***Come learn about career opportunities and internships with
the NNSA Nuclear Security Enterprise!
Register Today- tx.ag/NSE2021***

The Nuclear Security Enterprise (NSE) is made up of the National Nuclear Security Administration (NNSA) and its labs, plants and sites. NNSA is responsible for enhancing national security through the military application of nuclear science. It maintains and enhances the safety, security, and effectiveness of our Nation's nuclear weapons stockpile; reduces global danger from weapons of mass destruction; provides the U.S. Navy with safe and effective nuclear propulsion; and responds to nuclear and radiological emergencies in the United States and abroad.

The virtual panel discussion will provide insight into career opportunities, company culture and what it would look like to work in the NSE. Hiring managers and technical representatives will be in attendance of the career fair to collect resumes and answer questions. Note-Many positions within the NSE require a security clearance as a condition of employment.

Read more about each panelist and laboratory at <https://nationallabsoffice.tamus.edu/fall-2021-nuclear-security-enterprise-day-virtual-career-fair/>.
