

PHYSICS & ENGINEERING SUMMER RESEARCH AT MIAMI UNIVERSITY

NSF Funded Research Experience for Undergraduates in Physics & Engineering

The Physics REU site at Miami will enhance research and professional skills of the participants. Students will work on research projects under the direction of Miami Physics and Engineering faculty.

Program Details

- May 24 – July 31, 2021
- \$5,000 stipend for 10-weeks
- Food and travel allowance
- Free on-campus housing
- Professional development
- Amusement Park Physics
- Social activities

Research Areas

- Atomic, Molecular & Optical Physics
- Biophysics
- Computational Photon Transport
- Condensed Matter Magnetism
- Micro-Fluidics
- Non-Linear Dynamics
- Musical Acoustics
- Physics Education
- Quantum Optics & Quantum Information
