

MALES Summit

April 9, 2021

The MALES Summit supports male minority students as they develop personally and professionally as future college graduates.

If you're a male student between the ages of 14 and 24 and the event sounds like something you're interested in, join us April 9!

Our 2021 "Men at Work" theme symbolizes the event's goal: to help you build a solid foundation through education to put you firmly in the workforce.
