Position Summary:

Mayhill Hospital has an excellent career opportunity for professionals interested in the mental health/psychiatric field. Come join our team of compassionate, dedicated clinical professionals.

Program Therapist performs social service functions to include assisting adult and geriatric patients in meeting their bio-psychosocial needs while enabling them to achieve through therapeutic treatment their optimal level of emotional health, including basic consultation, teaching, complete specialized chemical social work services for patients/families receiving care, crisis intervention, short-term and long-term family therapy, and providing information and referrals as needed.

Mayhill Hospital is a private psychiatric hospital specializing in mental health and chemical dependency care for adults and seniors. We provide a wide range of services and programs that offer evidence-based treatment proven to have positive outcomes for our patients. Our inpatient and outpatient services offer supportive and compassionate care through specialty programs that are tailored to meet the needs of our patients. We provide mental health and chemical dependency care for adults and seniors. Our Inpatient Services consist of Mental Health Program to help those who need acute psychiatric care and stabilization in a safe and supportive atmosphere. Patients follow a structured schedule of therapeutic groups, activities and educational sessions. We have a Crisis Stabilization Program to care for individuals in serious mental health crisis that provides intensive supervision and support to patients in a safe and secure environment. Mayhill also offers a Chemical Dependency Program that provides care that safely manages the physical symptoms of withdrawal from prescription drugs, alcohol and/or other substances. Our Day Hospital (Outpatient) Services for Adults and Seniors is a continuum of care is offered for patients with mental health and chemical dependency problems through intensive outpatient services.

Requirements

Education: Master's Degree from an accredited college or university, in Social Work or a clinical related mental health field preferred.

Experience: Program Therapist prefers a minimum of two (2) years experience in a psychiatric health care facility, with direct experience in family and group therapies, crisis intervention, and treatment skills; must have strong clinical assessment skills.

License: Required LCSW or LMSW in the State of Texas.

Additional Requirements: CPR certification and Handle with Care/Verbal De-Escalation Training within 30 days of employment prior to assisting in a restraining procedure. May be required to work flexible hours and overtime.
