

TEACHING WITH TECHNOLOGY

Faculty, join us September 25, 10:00-3:00

Faculty Center
for Teaching with Technology

OPEN HOUSE

(Ag/IT 222)

Seminars on Create, Collaborate, CONNECT... and "Flipping" Your Classroom will be offered throughout the day.

FREE MEDIA LOUNGER TO THE FIRST 100 FACULTY GUESTS

5 REASONS WHY YOU SHOULD FLIP OVER "FLIPPING" YOUR CLASSROOM

Wondering about the buzz over "flipping" classrooms? "Flipped" classrooms use an "inverted" teaching structure in which instructional content is delivered outside class, while engagement with the content—i.e. skill development and practice, projects, etc—is done in class...under instructor guidance and in collaboration with peers. A "flipped" class swaps explanation and lecture—which are usually given in the classroom—with homework activities like math problem sets or writing practice activities. Homework becomes classwork...and classwork becomes homework.

So, come find out the top 5 reasons why "flipping" your class might work for you!

SESSIONS AT 10:00 - 10:30 AND 1:00 - 1:30

Seating Limited – Register Here

CREATE, COLLABORATE, CONNECT... Adobe Connect is a live web-conferencing solution available for faculty use at Texas A&M University-Commerce. It allows one-to-one or one-to-many conferencing capabilities, with screen and document sharing, Q&A polling, live chat, video and audio, as well as recording features. This hands-on introductory session prepares educators to create and deliver dynamic and engaging curriculum using Adobe Connect. Instructors will learn what tools they will need in order to integrate this innovative learning method into face-to-face, online, and on-demand environments. The service can be used to facilitate a flipped-classroom strategy, for one on-one tutoring sessions with students, or faculty guided team-meetings.

Learn how other faculty are already "Connecting" with their students.

SESSIONS AT 11:00 - 11:30 AND 2:00 - 2:30

Seating Limited – Register Here

Refreshments served 10:00 – 3:00

A MEMBER OF THE TEXAS A&M UNIVERSITY SYSTEM
